Category (Category Seo)

Overview

The **SEO** section allows users to manage search engine optimization details for catalog categories. Users can add and update SEO-related information such as SEO title, description, and keywords for better search visibility of categories.

Navigation

Home → Manage Categories → SEO

Category SEO

The **Category SEO** page displays all available catalog categories along with their SEO details. Users can optimize each category by adding relevant SEO information.

Manage Category SEO

To add or update SEO details for a category:

1. Open the **SEO** section.
2. Find the required category from the list.
3. Click on the **Edit** option.
4. Add or update the following details:
   - **SEO Title:** Add a relevant title for the category.
   - **SEO Description:** Add a short description explaining the category.
   - **SEO Keywords:** Add relevant keywords related to the category.
5. Click on **Save** to save the updated SEO details.

After clicking **Save**, the changes will be applied to the selected category.

Category SEO List

The SEO page contains the following details:

Field	Description
Title	Displays the category name.
SEO Title	Displays the SEO title assigned to the category.
SEO Description	Displays the SEO description assigned to the category.
SEO Keywords	Displays the keywords added for the category.
Update	Allows users to edit and update SEO details.

Available Actions

- **Search:** Allows users to search for a specific category.
- **Show Entries:** Allows users to select the number of records displayed in the list.
- **Edit:** Allows users to modify SEO details of a category.
- **Save:** Saves and applies the updated SEO information after editing.
