Sign Out

Overview

The **Sign Out** feature allows users to securely log out of the VirtuBox backend. It ends the user's current session and helps prevent unauthorized access to the account.

2. Access Path

Console VirtuBox Backend → VirtuWeb → Sign Out

3. How to Sign Out

Follow these steps to sign out of the application:

1. Log in to the console VirtuBox backend.
2. Locate the **Sign Out** option in the interface.
3. Click **Sign Out**.
4. Wait for the application to end the current session.
5. Verify that you are redirected to the login page or another appropriate page.

4. Conclusion

The **Sign Out** feature helps protect user accounts by ending the active session and preventing unauthorized access after the user leaves the application.
