VirtuApp(iOS) - Version 10.19

iOS Release Notes

Build Version: 10.19
Release Date: 03 August 2026
Platform: iOS
Release Type: Feature & Bug Fix Release

Overview

This release brings significant architectural improvements by migrating key dependencies to Swift Package Manager (SPM), alongside updates to forms and several critical gallery and camera bug fixes.

New Features & Improvements

Architecture & Dependencies

- **SPM Migration:** Migrated Firebase services and PhoneNumberKit from CocoaPods to Swift Package Manager (SPM).
- **Authentication:** Updated the core authentication logic in conjunction with the Firebase migration.

Forms

- **Camera Module:** Completed the migration for the form camera question.

Bug Fixes

Gallery

- Resolved a critical infinite loop bug within the gallery.
- Fixed an issue causing the gallery center mode to display incorrectly.
- Addressed all other general gallery bugs for improved stability.

Camera

- Resolved an error related to minimum and maximum constraints in the camera module.

Summary of Changes

Module	Change
Architecture	Migrated Firebase and PhoneNumberKit to SPM; updated auth logic.
Forms	Migrated the form camera question.
Gallery	Fixed center mode, resolved an infinite loop bug, and addressed general gallery issues.
Camera	Fixed the minimum and maximum camera error bug.

Revision #1
