Demo Account Prioritization

Overview

To display an account at the top in the demo, update its **Catalog UID** and **Title**.

- The **Catalog UID** is used to prioritize the account.

Access Path for Catalog uid:-

Leftside bar -> VirtuWeb -> Catalog uid

The **Title** determines whether the account appears in the **Horizontal** view, **Vertical** view, or both, based on the keywords mentioned in the title.

Access Path for Catalog Title:-

- **Leftside Bar -> My App -> Title**

1. Procedure

1.1 Display an Account at the Top in Vertical View

1. Go to account's **Catalog UID**.
2. Add a prefix such as `1-` to the Catalog UID to prioritize the account.
   Example:- 1-demo-hash_value
3. Edit the account's **Title** and include the keyword `Vertical`.
   Example:- account_title - Vertical
4. Save the changes and verify the account's position in the demo.

1.2 Display an Account at the Top in Horizontal View

1. Go to the account's **Catalog UID**.
2. Add a prefix such as `1-` to the Catalog UID to prioritize the account.
   Example:- 1-demo-hash_value
3. Edit the account's **Title** and include the keyword `Horizontal`.
   Example:- account_title - Horizontal
4. Save the changes and verify the account's position in the demo.

1.3 Display the Same Account at the Top in Both Views

1. Navigate to the account's **Catalog UID**.
2. Add a prefix such as `1-` to the Catalog UID to prioritize the account.
   Example:- 1-demo-hash_value
3. Edit the account's **Title** and include both keywords: `Horizontal` and `Vertical`.
   Example:- account_title - Vertical - horizontal
4. Save the changes and verify the account's position in both views.

2. Important Notes

- Ensure that the appropriate keyword is included in the account title.
- Include both `Horizontal` and `Vertical` keywords when the same account needs to appear in both views.
- Save all changes before verifying the results in the demo.
- The `1-` prefix is an example of a priority value. Ensure that it follows the UID format supported by the system.
